Tiruchirappalli, Tamil Nadu, India

PROFESSIONAL SUMMARY

Pre-final year Artificial Intelligence & Data Science undergraduate with strong foundations in web development and AI-integrated applications. Experienced in building AI-powered chatbots, interactive learning platforms, and full-stack web solutions. Demonstrates solid understanding of data structures, algorithms, and AI system integration, with a focus on creating scalable and user-centric applications.

SKILLS

Programming Languages: Python, Java, JavaScript, SQL

Web Technologies: React, HTML5, CSS3, Bootstrap

Backend & Frameworks: Django , FastAPI

AI & Machine Learning: RAG, LLMs, LangChain, LangGraph

Tools: Git, GitHub, Power BI

PROJECTS

ARGO – AI-Powered Web Platform for Intelligent Decision Support (SIH)

Sep 2025

Technologies: Django, LangChain, LangGraph, RAG, HTML, CSS, JavaScript, Bootstrap, ChromaDB

- Designed and developed responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap, ensuring cross-device compatibility.
- Built and integrated an AI-powered backend using Django, enabling dynamic and intelligent content delivery.
- Implemented a Retrieval-Augmented Generation (RAG) pipeline for document-aware question answering. Integrated LangChain and LangGraph workflows to enable structured, real-time AI interactions within the web application
- Developed end-to-end API integration, handling request/response flows, vector retrieval, and AI-generated outputs
- Managed seamless frontend–backend communication, including data rendering and user query handling
- Demo:** [Link](#).

Manipulation Detection AI System

March 2026

Technologies: FastAPI, HTML, CSS, JavaScript, LangChain, LangGraph, Supabase, Mistral-7B Instruct, Whisper, CLIP, Sentence Transformers(MiniLM)

- Built a **multi-modal AI system** to detect manipulative content across text, image, audio, and video
- Developed a **Chrome extension + FastAPI backend** for real-time content analysis and highlighting
- Implemented **RAG-based memory (Supabase + pgvector)** for contextual, personalized AI responses
- Integrated **Mistral, Whisper, CLIP, MiniLM** for advanced AI-driven detection.
- Designed **analytics dashboard** to track risk levels and manipulation trends
- Demo:** [link](#)

EDUCATION

B.Tech in Artificial Intelligence and Data Science

Saranathan College of Engineering - Autonomous

Tiruchirappalli, Tamil Nadu

September 2023 - Present

- Cumulative GPA: 8.56/10**
- Relevant Coursework:** Machine Learning, Deep Learning, Artificial Intelligence, Fundamentals of Data Science, OOP Concepts, Data Exploration and Visualization, Computer Networks, Data Structures and Algorithms.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-900)

Issued by Microsoft | Oct 2025
